

Financial Performance Dashboard: Global Product Insights

Overview

This project analyzes a **financial dataset** to uncover insights into global product sales, profit margins, discounts, and country-wise performance.

It combines **Python (data cleaning & analysis)** and **Power BI (interactive dashboards)** to demonstrate advanced analytics and visualization skills.

Dataset Columns

- Country
- Segment
- Product
- Sales
- Profit Margin %
- Unit Revenue
- Discount %
- Manufacturing Price
- Month Name

Features

♦ Python Analysis

- Data cleaning with **Pandas & NumPy**
- Exploratory Data Analysis (EDA) with **Matplotlib, Seaborn, Plotly**
- Statistical insights: YOY growth %, profit margin %, discount impact

♦ Power BI Dashboard

- KPIs:
 - **Total Sales:** \$14M
 - **Sum of Unit Revenue:** \$10K
 - **YOY Sales Growth %:** 21.51% (United States), 19.35% (Mexico), 18.28% (France)
- Visuals:

- Sales by Country (United States, Canada, Germany, France, Mexico)
- Profit Margin % vs Unit Revenue by Country
- Discount % vs Profit across products
- Month-wise revenue trends

Outcomes

- **Country Insights:**
 - United States contributed **21.51% of YOY growth**, leading global sales.
 - Mexico accounted for **19.35%**, while France contributed **18.28%**.
 - Canada and Germany showed moderate growth (~10%).
- **Revenue & Profitability:**
 - Total revenue exceeded **\$14M**, with strong margins in the US and Mexico.
 - Discounts impacted profitability:
 - At **0% discount**, revenue was \$671K.
 - At **1% discount**, revenue rose to \$1.93M.
 - At **2–3% discounts**, revenue dropped to \$1.16M and \$814K respectively.
- **Monthly Trends:**
 - Peak sales observed in **October (\$38.9M)** and **March (\$66.7M)**.
 - Lowest sales in **December (\$31.9M)**.
- **Business Value:**
 - Identified top-performing countries and products.
 - Quantified discount impact on profitability.
 - Seasonal sales patterns useful for forecasting and strategy.

Tech Stack

- **Power BI:** Interactive visuals and dashboards
- **Dataset:** Financial Sample (Excel/PDF)
